BY-MY-SIDE CO-SLEEPER

By-My-Side Co-Sleeper allows parents to sleep next to their baby without sharing the same bed. It can be used as a normal crib or as a co-sleeper. It can be adjusted to 6 different height levels and can be used at an inclined level to help with baby's congestion and reflux.

- This product is intended for use for babies aged between 0 and 6 months, weighing up to a maximum of 9 kg.
- **WARNING:** When a child is able to sit, kneel or to pull itself up, the crib shall not be used anymore for this child.
- **WARNING:** Be aware of the risk of open fires and other sources of strong heat, such as electric bar fires, gas fires, etc.
- Before assembly, check that the product and all of its components have not been damaged during transportation. Should any part be damaged do not use and keep out of reach of children.
- **WARNING:** Do not use the product if any part is broken, torn or missing.
- **WARNING:** the product is ready for use only when all locking mechanisms are engaged. Check carefully that these are engaged before use.
- **WARNING:** When the child is left unattended in the product, in "crib mode", always make sure that the side rail is raised and the zippers are completely closed.
- All opening, adjusting, anchoring and positioning operations of the product must be carried out exclusively by an adult.
- Before using in "Co-sleeping mode" (Fixed to the bed)" make sure the product is properly anchored and positioned.
- The product must always be placed on a horizontal surface. Never leave the product on an inclined surface with the child inside of it.
- **WARNING:** When the product is used in "Co-sleeping mode" (Fixed to the bed)", before laying the child in it, make sure that the connection belts are hooked and tensioned properly, the product must be secured to the parents' mattress and no gaps between the products and the adults' mattress must be present.
- Make sure the users of this product are knowledgeable on its proper operation.
- Children must not be permitted to play without supervision near the product.
- Use only spare parts approved by the manufacturer. Do not apply accessories to the product, which are not supplied by the manufacturer.
- Do not adjust the product with the child inside.
- Do not move the product with the child inside.
- Do not leave any object inside the product that could reduce its depth.
- Do not position the cot near walls and obstacles to prevent trapping hazards.
- Do not leave small objects inside the product to prevent choking hazards.
- Do not use the product with more than one child at a time.
- Do not use the product without the frame.
- Keep the fastening belts away from the reach of children.
- If you purchase a mattress separately, make sure it is suitable for the product.
- The product must be kept away from electric cables and cords: do not place the product near windows where cords, curtains or similar objects could pose choking or strangling hazards for the child. To avoid strangling hazards, do not give to your child or place near him, objects equipped with cords.
- A prolonged exposure to the sun may cause changes of tones to the product's colour. After a prolonged exposure of the product to high temperatures, wait a few minutes prior to placing your child in it.
- When not in use, keep the product away from the reach of children.
- All assembly fittings should always be tightened properly and that care should be taken that no screws are loose, be-cause a child could trap parts of the body or clothing (e.g. strings, necklaces, ribbons for babies' dummies, etc.), which would pose a risk of strangulation.
- Discontinue using the product if damaged and contact Love N Care for assistance.

ASSEMBLY OF THE CRIB

1. Hold the support leg making sure that the external tube slides upwards until you hear the locking **CLICK** in the first position (fig. 1). Repeat the same operation with the other support leg.
2. Fix the fabric lining to the assembled structure, (fig. 2-3)
3. Subsequently fix the upper structure to the legs, inserting the rail support as illustrated in (fig.4). Push down-wards until you hear the **CLICK** of correct fixing. Carry out this operation for both sides.
4. Close the zipper of the fabric cover over the fixed rail (fig.5)
5. Slide the Removable rail inside the pocket of the fabric cover (fig. 6)
6. Fix the removable legs rail to the legs (fig. 7)
7. Close the fabric cover using the side zipper (fig.8)
8. Place the mattress on the bottom of the crib (fig.9)

HEIGHT ADJUSTMENT

The crib can be adjusted to different height positions. In order to adjust the height, pull the adjustment lever upwards and lift the crib to the desired position (fig. 10). Repeat this operation on the opposite side. The base of the crib can be inclined slightly by adjusting the 2 legs to different heights.

WARNING: The head of the child should always be positioned on the highest side

CO-SLEEPING MODE

The crib can be fixed to the parent's bed (co-sleeping mode).

WARNING – IMPORTANT FOR THE SAFETY OF YOUR CHILD: this method is only possible with bed types that comply with all of the conditions described.

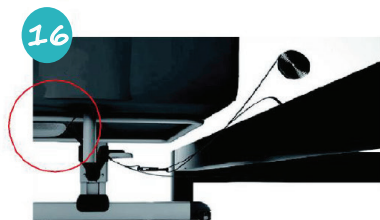

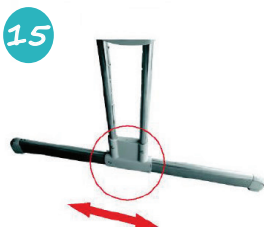

In particular the side support of the crib should always be put close to the parent's mattress and the mattress should always be aligned with the height of the side support for restraint of the crib. Furthermore, the crib should be firmly fixed to the structure of the parents bed or to the mattress support (net or slats).

WARNING: Check to make sure that the crib in the co-sleeping mode does not interfere with the parent's bed.

WARNING: During use, make sure that the parents bed sheets, blankets etc. do not enter and cover the interior of the crib.

1. Open the side of the crib with the window using the side zips and open them completely (fig. 11)
2. Remove the removable rail on one side and then on the other (fig. 12). Once this operation has been performed on both sides, remove the tube and fix it to the legs of the structure using the relative supports (fig. 13).
WARNING: use the crib with the tube lowered, only in the co-sleeping mode.
3. Move the crib close to the parent's bed and check the height of the crib compared with the mattress of the bed.
WARNING: the height of the parent's mattress should always be more than that of the side support for containment of the crib (fig. 14).
WARNING: in the co-sleeping mode the 2 legs of the crib should always be adjusted to the same height.(fig.15)
4. In order to fix the crib to the parents bed (co-sleeping mode) use the pair of straps provided. Fix the buckles underneath the fabric lining on both sides. Repeat for both sides. Subsequently fix the belt around the structure of the parent's bed, from the bottom towards the top and fix the buckle). Repeat this operation on the other side.
For easier installation, during fixing of the buckles, we suggest that the crib is kept at a short distance from the parent's bed.
WARNING: before every use always check to make sure that there is no space between the parent's mattress and the side of the crib. If there is, pull the belts firmly to tighten until there's no space and the permitted condition of use has been restored.
Store any excess of belts inside the pocket positioned on the bottom of the fabric lining.
