14. HOW TO HANDLE BABY STROLLER

○ It is important to care a stroller normally. Especially if you do not care for movable spot of the wheel part, it is difficult to have suitable performance. For long and clear use, please care for the baby stroller as below:

1. How to care for the wheels

① When it get dirty

- Please wash out dirt on wheels by clean fabric.
- For serious dirt, please wash out with water and quickly wipe out with clean fabric.
- After you wipe out, please put some oil between wheel and shaft.

② When wheels do not work properly

- Please check wheel parts if there are something to disturb for wheel rotation.
- If there's nothing to disturb for wheel rotation, please put some sewing machine oil.

③ When you feed oil in wheels.

- Please use lubricating oil or sewing machine oil.
- Please drop some oil and do not put too much oil.
- After you drop some oil, please rotate a wheel to spread oil.

2. How to detach a seat.

- If you would like to detach a seat, please follow as below.

1. After detach a canopy, please detach velcro tape on the rear wing as Picture 1.

2. Please detach velcro tape as Picture 2.

3. As the top view Picture 3, please detach the main seat and backrest.

4. Please take snap button off as Picture 4.
