CARE AND MAINTENANCE

- Clean frame with a damp cloth and a mild detergent and dry thoroughly.
- Do not use abrasive cleaners. Do not soak in water.
- The toy bar cover may be sponged lightly using a damp cloth and mild detergent.
- Dry thoroughly before reuse. Do not fold or store the product while wet or in a damp environment as this can cause mildew to form.
- Always store your product in a clean dry place.
- Do not leave in the boot of car.
- Avoid exposure to salt water, as this may encourage the formation of rust. If bouncer is used in this environment completely clean your bouncer afterward to remove sand and salt from mechanisms.
- Should parts of your bouncer become stiff, squeak or difficult to operate ensure dirt is not the cause.
- Clean metal parts with a damp cloth and wipe dry.
- Clean vinyl with mild soap and water solution.
- When storing bouncer, never stack other items on top of it, this may damage the bouncer.
- Periodically check for worn parts, loose screws, torn materials or stitching.
- Replace any damaged parts immediately
