INSTRUCTIONS FOR ASSEMBLY

Components list with its description

- Main structure (A)
- Legs x2
- Fabric

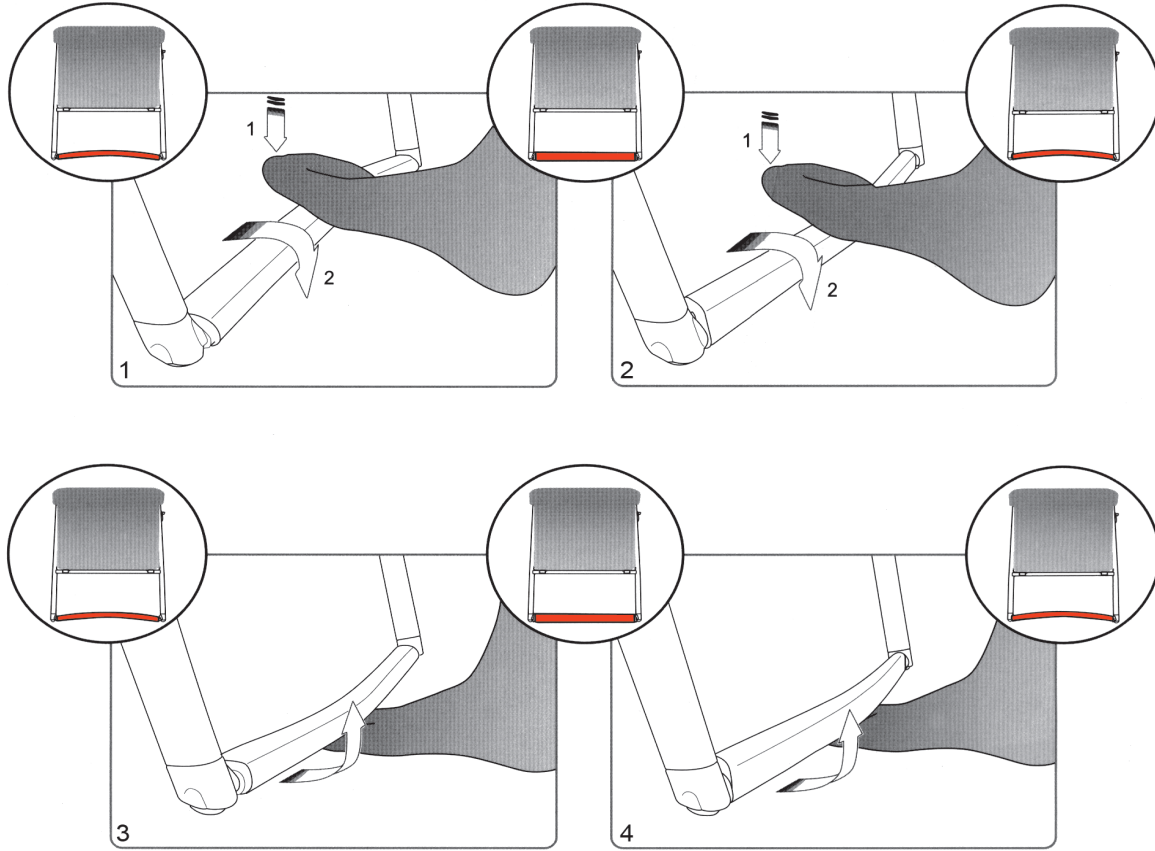

All the components can be found in the packing

To **assemble the structure**, the most convenient way is to put component A (top frame) on the floor. Then, join cradles legs in the direction shown in picture 1. To assemble each leg correctly it is necessary to push the red buttons situated on the ends of each leg towards the frame. Ensure the locking systems are active like in the picture; after assembling this piece will be situated to the left.

The next step is to **assemble the fabric**. Fabric will be placed onto the top metal structure when the base is placed upright. The fabric gets fixed to upper structure closing the A zips at the edges of the textile, as shown in picture 2.

Then, join side's velcro straps and safety locks under fabric as shown in picture 3. Place the base board on base and snap the holders to the frame bottom. Make sure all four holders are locked into position as shown in picture 4.

This cradle has 3 usage positions: Rock ,Stop and Move.

Rock Position: Push the bottom legs of the cradle from the curved upright position to the curved downwards position. As shown in Pics 1 and 2 you can push the position of the leg from upwards to downwards with your foot or hand.

Stop Position: Push the bottom legs of the cradle from the curved downward position to the upright position. As shown in Pics 2 and 1 it is a reverse of the steps for the rocking position. You can just kick or push up the legs with your hand or foot.

Move position: Push the bottom legs of the cradle to the side position. As shown in Pics 3 and 4 you can push the legs to the side and you can move the cradle around. There are 2 wheels on one of the legs to help you move it around. You can move the leg with your hand or foot.

CARE AND MAINTENANCE

All Love N Care products have one year warranty from the date of purchase. It is recommended to regularly inspect and maintain movement of locking devices and security of essential components.

To prolong the life of your cradle keep it clean and do not leave it in direct sunlight for extended periods of time.

Regularly check all parts for wear and tear. Lubricate if tight.

The fabric may be cleaned using warm water with a household soap or mild detergent. Allow it to dry completely before re-use.

Non-removable fabrics and trims may be spot cleaned using a damp sponge with soap or mild detergent. Allow it to dry completely before folding or storing away.

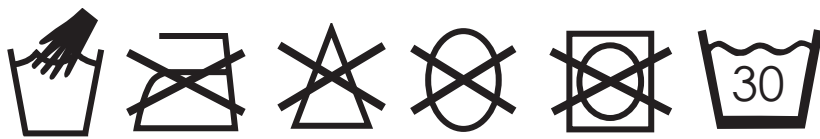

Never clean with abrasive, ammonia based bleach based or spirit type cleaners.

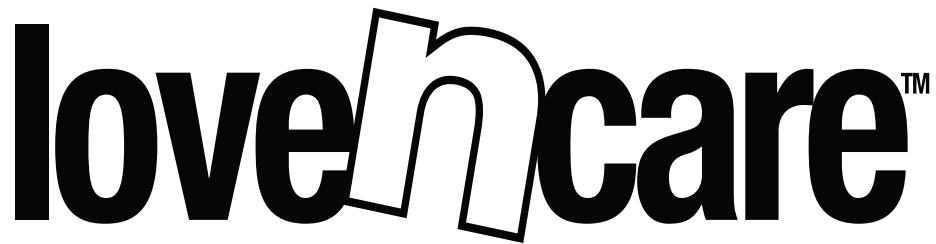

If the wheels become damaged or worn discontinue use and replace.

Mattress can be machine washed (30° maximum, neutral soap only)

Metallic and plastic parts can be hand washed with tepid water and neutral soap.

Do not use aggressive substances.
